Dear Mr. Pappas:

Thank you for stopping into our office on Monday, September 29, 2003. You were accompanied by Mr. Gene Richards, and you spoke with me about the contents of our letter to you on September 9, 2003. You requested that I calculate a reclamation cost estimate for your operation which has been completed. A copy of the worksheet is enclosed; the final figure is \$24,953.55. If you agree with that figure, please give us written concurrence, after which you will have 60 days to submit the financial guarantee to the Utah State Office of the BLM. If you do not agree with our estimate, you may submit your own for our review.

Please note that the estimate does not include any allowances for demolition of any buildings. The occupancy proposal approved with your Plan is for a small, portable watchman's trailer. In his July 3, 2003 letter, Jerry Gatto stated that you "will present another facility for your consideration that he has in mind for quarters." When that proposal is submitted, it will be treated as an amendment to the Plan of Operations, and the reclamation cost estimate may have to be revised.

Also enclosed are copies of the sales permits Levin Stone purchased before extracting stone from the Spectrum Quarry in the fall of 1999 and the winter and spring of 2000. Gene Richards had requested these documents in earlier conversations
